SAVE THE WHALES

The fate of the world's whales is in our hands

On 22 June, the New Zealand Government will meet with governments from around the world at the International Whaling Commission in Portugal to decide the future of the world's whales. Countries will be considering a proposal which would effectively lift the international ban on whaling and spell disaster for whales – we need your help to stop this proposal being adopted.

Please sign this to tell the New Zealand Government to speak out against any proposal which would threaten the international whaling ban.
